Dear Comrade,

At the very outset, we appreciate and value your decision to lend active support of your Association to our ensuing and crucial struggle for resolution of long pending and vital HR issues of Executives in BSNL which have unfortunately remained unaddressed over a fairly long time. We hope you will be communicating your decision to DoT as well as BSNL management, if it has not done so far.

Comrade, we are confident that you will acknowledge that non resolution of these issues has completely sealed the career growth of Executives across the spectrum in all respects, regardless of their Association affiliations. Thus, without, questioning your judgment or decision regarding your full participation in ensuing struggle, we believe that it would be most appropriate and befitting for your Association to participate in the struggle wholeheartedly to make it a spectacular success. We are quite confident that our request to you to wholeheartedly participate in the coming struggle will receive your serious consideration in the larger interest of Executives in BSNL.

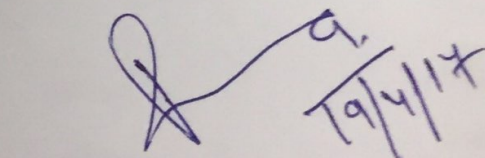

Being a senior Comrade, you will surely agree that success of this crucial struggle in terms of resolution of critical HR issues will eventually and inevitably pave the way for unity of all the Executives, realizing the dream of each one of us to have a single Executives Association for the Executives in BSNL.

With Regards,

(K. SEBASTIN)
